

Dear Colleagues,

On behalf of the Exclusive Committee of Sports Medicine Association of Greece and the Organizing Committee of the congress we are in pleasure to carrying out the program of the congress and the names of the Greek and foreign scientists who will participate to the congress.

We believe that the topics of the congress certified the correlations between the Medicine and Sports Sciences and necessitated the organization of Sports Medicine congresses.

Under our experience from the previous five congresses we believe that this congress, as the previous, will be very successful.

Yours active participation in discussions of round tables, lectures and free announcements will promote the success of the congress.

We wish to have pleasant and constitutive time in Thessaloniki.

With honor,

P. Gigis
President

K. Natsis
Gen Secretary
